Workers remove floor patch in University Center

Making adjustments to the University Center elevator shaft

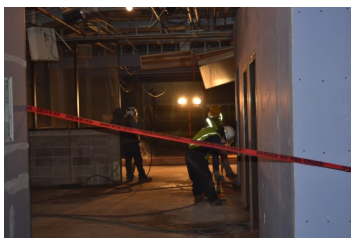

Bricklayers attach brick to the Library flood wall

Workers build flood wall frame in front of Bashful Building

## Floor demolition begins in University Center

Workers began manually removing two layers of floor patch in the **University Center** this week to prepare the surface for the installation of Terrazzo flooring. The Center's elevator shaft also is being prepared to receive a new custom-built elevator. The renovation is expected to be complete by August.

## Bricks laid on library flood wall

Bricklayers were hard at work this week attaching bricks to the **Library** floodwall. Inside, workers were removing hazardous materials from the second floor. The renovation project is expected to be complete in June.

## Building flood wall frames for Bashful Building

Workers continue to build frames for the flood wall surrounding the **Bashful Administration Building**. They will begin pouring cement soon for the flood walls on the front of the building facing Press Drive. The renovation is expected to be complete in June.
