

Training and Professional Development Policy

To encourage SUNO employees to improve their professional skills and foster professional development, the University actively participates in the Comprehensive Public Training Program (CPTP).

The CPTP is a state-funded training program for state employees. Through CPTP, employees are offered management development and supervisory training, skills training for non-supervisory personnel, and training in specialized areas. All state employees are eligible to participate in appropriate classes with permission from their supervisors.

To access these courses please visit: <http://www.civilservice.louisiana.gov/Divisions/Training/>

The Human Resources Department is available to address training deficiencies and address departmental needs.

The employee pays no fees to take classes.
