Office of the Chancellor

September 10, 2021

Dear Southern University at New Orleans Community:

We are encouraging all students, faculty, and staff to get tested before returning. Persons who are not fully vaccinated must take a COVID test and provide negative results upon return. We are also providing testing on campus for those unable to take a test *before* September 13.

Testing Information:

University Center, 1st Floor
Monday-Friday
8 a.m. - 4 p.m.

Fully Vaccinated-is someone that has completed a two (2) week period after receiving their second dose of the Pfizer or Moderna vaccine or completed two (2) weeks after receiving a single Johnson/Johnson vaccine. The person must provide evidence that they are fully vaccinated.

Unvaccinated-is someone that has not completed a two (2) week period after receiving their second dose of the Pfizer or Moderna vaccine or completed two (2) weeks after receiving a single Johnson/Johnson vaccine, a person that has only received one (1) dose of the Pfizer or Moderna vaccine or a person that has not been inoculated with the Pfizer, Moderna or Johnson/Johnson vaccine.

All results and proof of vaccination should be sent to studenthealth@suno.edu.

With kind regards,

A handwritten signature in blue ink that reads 'James H. Ammons'.

James H. Ammons, Jr.
Executive Vice President-Chancellor
