

# Hurricane season is here; so is COVID-19.

It's now *more important than ever* to have a plan should a storm come our way.

## Make a plan

Talk about how you'll evacuate, in case you need to. Make a plan to shelter at home, too.

The immediate threat to life from a major hurricane is more severe than the potential of virus exposure.

## Prevent the spread

Stay at least  
6 feet away  
from others

Wear face a  
covering

Disinfect high-  
touch surfaces  
regularly

Wash hands  
often and use  
hand sanitizer
