Your Pathway

To an inspiring career

A LIFETIME CAREER

According to the U.S. Bureau of Labor Statistics, Forensic Science Technicians:

- Average hourly salary: \$27.81 per hour
- Average yearly salary: \$57,850 per year
- Typical Entry Education: Bachelor's degree
- Work experience in related occupation: None
- Job Growth Outlook (2016-2026): Much faster than average

Our Forensic Science department continues to provide a world class education for our future leaders. Today, it is important for our students to have the knowledge and skills to become experts in their chosen field. Our professors are steadfast in their dedication to this process. From the lab to the field, we are committed to developing successful students. We cannot do that without you. Will you join us on this exciting journey?

EVERY CONTACT LEAVES A TRACE

Bisel, Geoffrey and Locard. What do all these names have in common? They are all forensic science pioneers. Forensic Science is constantly evolving, and more great people are needed. As a Forensic Scientist, you can continue this tradition and pave the pathway for future forensic scientists.

FROM STUDENT TO EXPERT

As a student, you will gain the knowledge and skills necessary for leveling up in your academic life. Our curriculum is designed to prepare you to be an expert in your future career.

Your professors are dedicated to helping you grow from a student to an expert. After your successful commencement, your expertise will unlock doors to new opportunities. You can have knowledge and skills for gainful employment or continue your academic career. The choice is yours.
