The Southern University at New Orleans strategic planning is a dynamic process that included the participation of faculty, students, staff, alumni, board members and community stakeholders through surveys, focus groups, retreats, town hall meetings, committee meetings and individual interviews. The theme that has guided Southern University at New Orleans in the strategic planning process is one based on a “TEAM” (Togetherness Empowers All Mechanisms) Approach: 2018:2025, the outcome of a concerted and comprehensive effort that established a roadmap, or “blueprint,” emphasizing a clearly defined vision and achievable goals that reflect our mission, direction, priorities, and core values. Southern University at New Orleans’ progress toward these goals will be measured using an annual accountability scorecard.

II. A brief statement identifying the principal clients and users of each program and the specific service or benefit derived by such persons or organizations:

Southern University at New Orleans, part of the Southern University System, is categorized as a Southern Regional Education Board (SREB) Four-Year 5 institution, as a Carnegie Master’s College and University (Medium Programs), and as a Southern Association of Colleges and Schools - Commission on Colleges (SACSCOC) Level III institution (Master's Degree). Southern University at New Orleans offers a wide range of baccalaureate programs and be committed to graduate education through the masters degrees, offering graduate programs to meet regional/state needs. The Selective Admission policy which was adopted formally in Fall 2010 will continue to be implemented. Southern University at New Orleans will retain its associate degrees offering in Substance Abuse (Addictive Behaviors Counseling and Prevention) as the program supports enrollment in the baccalaureate program and supports manpower needs in a highly relevant discipline in the State. Research appropriate to academic programs offered and necessary for program accreditation will be intensified.

Southern University at New Orleans provides a sound education tailored to the special needs of students in an urban environment and prepares them for full participation in a complex and changing society. It offers a liberal education directed toward the achievement of higher literacy and broad intellectual development. Southern University at New Orleans also provides instruction for working adults of the area who seek to continue their education in the evening or on weekends.

III. An identification of potential external factors that are beyond the control of the entity and that could significantly affect the achievement of its goals or objectives:

Southern University at New Orleans' performance depends on state funding, with increases enhancing quality and decreases impairing its ability to meet, let alone exceed, its goals. Other external factors that could significantly affect the attainment of its goals and objectives are new demands, requirements, and/or changes in federal and state statutes, rules and regulations; new or changed criteria for accreditation by regional or specialized accrediting agencies; and changes in the rules and regulations of governing boards. In addition, funding is dependent upon economic changes on the local, state, national, and/or international levels. Federal and state appropriations may vary depending upon these economic fluctuations and are subject to the special priorities corresponding to legislative initiatives.

IV. The statutory requirement or other authority for each goal of the plan.

The following statutory requirements and authorities are applicable to all of the goals below: Louisiana Constitution of 1974, Article VIII, Section 7; The Master Plan for Postsecondary Education, 2011; LA R.S. 17:3216; R.S. 17:1851. The SU System, as an administrative unit was created in 1974 by Article VIII, Section 7 of the Constitution of Louisiana (added by Act 313, as Title 17:1851-1854 of the Louisiana Revised Statutes), which authorized the creation of the Board of Supervisors of Southern University and Agricultural and Mechanical College as a body corporate to supervise and manage the institutions, statewide agricultural programs and other programs administrated through its system. Its powers, duties, responsibilities and related matters are set forth in Title 17: Section 3201, et seq. of Louisiana Revised Statutes. Southern University System and its campuses are a part of the Master Plan for Public Postsecondary Education, Board of Regents, LA.

V. A description of any program evaluation used to develop objectives and strategies.

Southern University at New Orleans maintains an ongoing cycle of planning and evaluation for the purposes of program improvement. Strategic planning requires an annual reporting of progress made in achieving strategic goals as demonstrated through performance measures and indicators. The evaluation process allows for new objectives and strategies to be developed to further progress toward the desired strategic outcomes. The Southern University System and its campuses have developed an annual accountability scorecard to monitor progress towards the achievement of each objective that is aligned with a particular goal.

VI. An explanation of how duplication of effort will be avoided when the operations of more than one program are directed at achieving a single goal, objective, or strategy.

For the purposes of Act 1465 of 1997, Southern University at New Orleans is a single program. Duplication of effort of more than one program is thus not applicable.

VII. Documentation as to the validity, reliability, and appropriateness of each performance indicator, as well as the method used to verify and validate the performance indicators as relevant measures of each program's performance.

See Performance Indicator Documentation attached for each performance indicator.
