

1. Download the Jabber App on your smartphone
2. Using the **Search** feature, type in **Cisco Jabber** and then tap **Search**.

3. Tap **Get** and then **Install**.

4. Sign in to the iTunes Store if you are prompted to do so and then tap OK.
5. Tap the Jabber icon to launch Jabber.

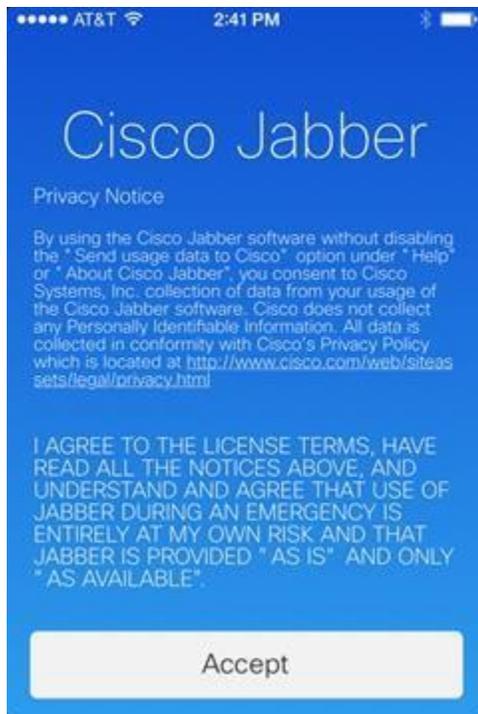

- The following message appears: "'Jabber' Would Like to Access Your Contacts." Tap **OK**.

- The following message appears: "'Jabber' Would Like to Send You Notifications." Tap **OK**.

- Read the notices and license terms and tap **Accept**.

9. Swipe left and tap Get Started Now on the next screen.

Sign in

10. Enter your email address and tap **Continue**.

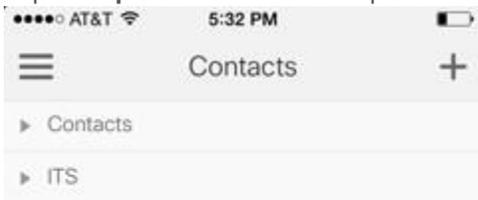

1. Enter your password. Decide whether you want Jabber to automatically sign you in when the application launches, and tap the **Automatic sign-in** box accordingly. Tap **Done** when you are finished. If you get a **Certificate Not Valid** message(s), tap **Continue**.

Sign out

1. Tap the **options** menu in the top left-hand corner of the screen.

2. Tap **Sign Out**, located below Settings and to the right of Accounts.

Below are instructions to access your office voicemail via Jabber.

1. Sign into the Jabber app on your device.
2. Click the Call icon at the bottom of the screen.
3. Dial your office phone extension with the keypad within Jabber.
4. You will be prompted to enter your voicemail PIN just as you would at your desk.
